

About International Conference

In the 21st century, innovation and digitalization have emerged as powerful drivers of sustainable development across health and social sectors. Innovation enables new solutions to complex global challenges, while digital technologies enhance efficiency, accessibility and inclusiveness. Together they play a crucial role in achieving long-term social and economic sustainability. From a social perspective, innovation and digital tools foster inclusive development by bridging gaps in education, employment and social welfare. Digital platforms enable skill development and financial inclusion, empowering marginalized communities and promoting social equity. Sustainable development requires balancing technology progress with ethical consideration, environmental protection and human well-being.

Conference Benefits

- Publication opportunity in peer-reviewed or referred research e-journals
- Publication in referred Conference proceedings with 13-digit ISBN
- Proxy presentation for those who cannot attend the Conference
- Online presentation available for all as needed

PRAGYA KENDRA – EMPOWERING JHARKHAND DIGITALLY

About Us

Pragya Kendras are the cornerstone of the National e-Governance Plan (NeGP) in Jharkhand. Functioning as a "Single Window" for various government and financial services, we act as the vital link between the state administration and its citizens. Our centers are strategically located in every Panchayat and urban ward to ensure that no citizen has to travel long distances for basic administrative needs.

Our Vision

To create a digitally inclusive Jharkhand where every citizen—regardless of their location or literacy level—can access government services with efficiency, transparency, and dignity.
